“The right choice to be a step ahead”

Dear Students,

It might be the first time in your life to live away from your family when starting studying at a university. The accommodation facilities of European University of Lefke will give you an opportunity to enjoy independence in a comfortable and safe environment. We have a high range of accommodation based on your preferences.

Our University is home to students from 5 continents and 80 different countries. Most of EUL's students live in EUL's residence halls, which are just walking distance away from the place of study. The residence halls offer a safe and good value accommodation with fellow students and are a great place to make instant friends. They are comfortable, peaceful and provide to a safe environment.

Government Owned Residences are the accommodation facilities run by the public sector and they are available for EUL students free of charge. They serve to European University of Lefke students with 684 rooms.
